"Helped me get "unstuck" and on track in my creative ambitions" -Past Artist's Way Student

Kate Gavigan is passionate about *The Artist's Way* having personally experienced the benefits of the materials. Kate worked in social services as a trainer for over 10 years when she found herself drawn to the material in *The Artist's Way*, which helped her uncover a passion for theatre and marketing the arts. She credits her mid-life career change (now working at her dream job as a PR Manager at a theater) to having gone through *The Artist's Way*.

Carol Battistoni studied art as an undergraduate which helped her to realize the importance of art and self expression to the human psyche. Carol's undergraduate experiences lead her to studying counseling psychology and expressive arts therapy. Carol is currently practicing as a Psychotherapist in Seattle and continues to explore the process of making art as a vehicle to knowing oneself more intimately.
